

Portable Test Stand System for MFG and MSA Applicators

2600-103 Test Stand System for MFG and MSA Valves

Test Stand System for MFG and MSA Valves

The **2600-103 Series Test Stand System** is engineered for attaching, pressure testing and air purging Sealant Equipment applicators: the MFG-Multi Function Gun and MSA-Multi Stream Applicator.

The Pneumatic Control Panel has air pressure regulators and gauges for fluid pump and valve air purging; Control valves for air on-off control of each applicator; Control valves for fluid test or purge selection; and Valve open-close selector valves for each applicator.

- ▶ **Test Stand System for testing rebuilt MFG sealer and MSA sound deadener applicators used in Paint Shop robotic dispensing applications**
- ▶ **Test Stand System is self contained and includes a portable cart for mobility**
- ▶ **Test Stand System includes all necessary testing apparatus and hardware**
- ▶ **Contact us for other Applicator Test Stand Systems**

Typical Applications

- High pressure testing rebuilt MFG-Multi Function Guns
- High pressure testing rebuilt MSA-Multi Stream Applicators
- Testing new and used stream, spray and ribbon tips
- Selecting various sizes of stream, spray and ribbon tips

2600-103 Series Test Stand for Paint Shop Applicators

System Specifications:

- Engineered for MFG and MSA Applicators
- Portable Cart Assembly with Handle: 36" w x 54" Lg.
- 4:1 Fluid Pump Assembly with Pail Cover, 5 Gallon Fluid Pail, Air Control and Dispense Hose
- Pneumatic Control Panel and Stand with Pneumatic Regulators and Gauges, Fluid Test / Water Test / and Air Purge Directional Control Valves, Valve Open-Close Directional Control Valves and (2) Gun Stands each with 5 Gallon Pail and Locators
- Main Air Control Assembly with Lock Out Valve
- All necessary hoses, fittings and tubing

MSA-1: 1-Valve Multi Stream Applicator

MSA-2: 2-Valve Multi Stream Applicator

MFG: 3-Port Multi Function Gun

MSA-3: 3-Valve Multi Stream Applicator
