

Manual Valve Handles

1K Dispense Valve Handles

Handle Assemblies for 1-Component Dispense Valves

1270-857-000 Pneumatic Handle (Shown
With 2200-245-125 Tip-Seal® KISS Valve)

- **Lightweight Construction For Greater Ergonomic Comfort**
- **Pistol Grip Handle Assemblies**
- **Vertical Handle Assemblies**
- **Light Touch - Pneumatic Trigger Actuators**
- **Light Touch - Electric Trigger Actuators**
- **Trigger Guards On Electric Handles**
- **Handles Available For A Variety Of One-Component Dispense Valves**

A lightweight handle makes manual applications much easier on the operator and allows for precision dispense control. Handles are available in pistol grip and vertical handle designs for operator and process convenience.

Trigger actuation is performed by electric switch (24 VDC) or pneumatic switch operation. In some cases a foot pedal actuator may be used with a pistol grip or vertical handle.

When the trigger is depressed, the

dispense cycle begins. Releasing the trigger stops the dispense process. The electric handles includes a trigger guard and 25' of wire, to connect to controller. The pneumatic handles includes a trigger and pneumatic actuator, air hoses and fittings to connect dispense valve.

In addition to the one component, manual handle assemblies, two component handles assemblies are available for the two component valves.

Handle Assemblies for 1-Component Valves

1270-658-002
Pneumatic Handle
(Shown With
2200-245-125 Valve)

1270-658-000
Pneumatic Handle
(Shown With
2200-727 Valve)

1280-229-000
Electric Handle
(Shown With
2200-245-125 Valve)

1280-230-000
Pneumatic Handle
(Shown With
2600-041 Valve)

1270-715-000
Electric Handle
(Shown With
2200-727 Valve)

1270-783-000
Pneumatic Handle
(Shown With
2200-727 Valve)

1280-231-000
Pneumatic Handle
(Shown With
2100-480 Valve)

Typical Compatible Materials:

- One-Part Acrylics
- One-Part Epoxies
- One-Part Silicones
- One-Part Urethanes
- PVC Plastisol
- Oils And Lubricants
- Greases
- Polyols And Resins
- Catalysts And Hardeners
