

Supply Pumps

5 Gallon (20 Liter) Pail Series

5 Gallon Supply Pump Systems

5-Gallon Single Post Ram Pump

Precision Pump Assemblies for Adhesive and Sealant Materials

The **5 Gallon Ram Supply Pump** station supplies single component adhesives or sealants to positive displacement and fluid regulated meter systems. These mechanically robust pump designs have various options including automatic crossover control and low level shut-off control. Stainless-steel, abrasion-resistant components and two-ball options are ideally suited to handle abrasive or heavily filled materials.

- ▶ **Single and Dual Pump stations are available to supply one-component and two-component materials to metering, dispensing and fluid regulated systems**
- ▶ **Pneumatic drive motors in varying power ratio sizes are available for low to high pressure material pressure requirements**
- ▶ **Two-Ball and Chop-check double-acting pump lowers are available with carbon steel or stainless steel wetted components**
- ▶ **Wide selection of high-quality ram pump suppliers**

Available features:

- ▶ **Pump lowers and pump seals for handling abrasive materials**
- ▶ **Pneumatic or Electronic integrated automatic pump cross-over control**
- ▶ **DeviceNet or equivalent integrated network communication system**
- ▶ **Material level monitoring, drum empty, pump-change control**

Typical Applications

- Pressure supply for 1-Part meters
- Pressure supply for 2-Part meters
- Pressure supply from Pressure Tanks
- Back-up supply for 55 gallon pumps
- Manual dispensing applications
- Robotic and automated dispensing
